Four days of joy: Australian National Diwali Puja

Diwali Puja 2003 celebrations attended by local & inter-state yogis has been a wonderful experience.

Arriving at Longwood Camp set in green Adelaide Hills last Friday, we were treated to Sahaj plus!

Saturday was filled with such goodwill, fine food, care and collectivity that one wanted the day to last forever.

About 2 hours after midnight we retired after a powerful havan at 5.00pm followed by a light meal and a very devotional puja, set amidst glorious flowers and decorations. Songs of praise sung with full heart developed waves of cool vibrations. A great deal of dancing and celebrations carried us well into the night.

Before Sunday lunch we enjoyed a light-hearted concert with several plays and selections of music and songs. Children danced and also played lovely violin music.

That afternoon saw some of us at a park giving self realisation and handing out program details for Monday night.

Shri Mataji was presented on a large screen to the new seekers at the program. All those who came felt the cool breeze. Some stayed back to chat and also register for the next course of Sahaj Meditation evenings.

Thank you to all the Adelaide collective, and congratulations for Sahaja Yoga at its best!

from New South Wales...

Highly successful realisation sessions at Manly Corso will re-commence on 30th November to cater for the summer crowds

Summer is just around the corner and that means heaps of people from Sydney and travellers from overseas will be heading to the beach. This is where you come in...

...Calling all Sydney Sahaja Yogis to Manly Corso to help give realisation to the many and varied people that come to this very busy walkway leading to the beach.

In previous years the number of people getting realisation was only limited by the number of yogis attending the stall. On sunny days literally hundreds of people are able to get their realisation.

Our first booking for this new season of sun is on Sunday, November 30. We plan to start at around 11am and it will go through to 4 - 5pm. We will be under the big FIG TREE in the middle of the corso.

Come and help for an hour or two, or come for the whole day. Whatever you can spare will be valuable. Then if you like, in the afternoon, you can take a leisurely stroll down to the beach (about 200m away) and have a nice cool swim....(don't forget your swimming gear)....

Hope to see you all there.

Jai Shri Mataji

Requests for assistance for
Mother's Love Childcare Centre:

Whipper snipper needed

We need to borrow a good whipper snipper 3 or 4 times a year to do the unruly lawn edges at the *Mother's Love Childcare Centre*. We need a petrol model with a thick snipper chord as the edges have built up to the point where an ordinary household snipper is not up to the job.

If anybody is able to lend a machine when needed, please contact Leanne Shutt on 9566 4021.

Regards

Leanne Shutt

Volunterers needed for letterbox drop

We also need a team of people to letter box drop for *Mother's Love Childcare Centre* so that we can have enough students to appreciate the finely trimmed lawns.

This way has proven effective every time. Please get in touch with me if you are willing to assist.

Regards

Raymond Hampton

INTERNATIONAL NEWS

Request from Belgium...

Help keep Belgian kids off the streets...

If you feel you can help Willy and Trees from Belgium out with their request below, please contact them directly at: maes_laridon@yahoo.com

Thanks,

*Richard Kennett
Sydney, Australia*

"Dear Richard,

Since about one year, starting September 2002, we have organized regular meetings on Saturdays for the children.

We have now two groups: aged 4-10 years and 11-15 years. We are looking for some inspiration for helping the people to organise these meetings.

So we want some texts, creative techniques, ideas for plays, songs, pictures, scripts for a play, puppet shows, introductions for sahaj items etc, in order to enhance sahaja ideas and culture in these meetings.

May I ask you to send us documentation the yogis are using in their centres and schools. Or if you can bring us in contact with people who know more about these topics.

We don't know how to thank you for this,

Trees and Willy

P.S. We have translated the brochure you sent us, and we were able to spread it to several thousands of people, by giving it after self-realisation"

Astrological prediction from India...

Galactic alignment at Diwali 2003

Dear All

We were reading the interesting message below that is circulating in the Sahaj Net. Probably you have the same similar feelings about it as we have here in Argentina.

We are all waiting for such a moment when the collective being will take this tremendous manifestation. At the same time, we the Sahaja Yogis know what Our Holy Mother is capable of. Also we know that we are Her instruments.

We were feeling that instead of waiting, thinking or watching if such a thing will take place or not, our role is to make it happen, with full desire, faith and meditation. Our Mother has done everything for us and granted us all these Powers. We have to be the "Heavenly Beings of Light" that will make this jump once and forever. Mother is the Director and we are the Actors that will give to mankind the gift that She wants to bestow on everyone.

In this Diwali we will all be the Complete Sahaja Yogis that will enlighten this Whole World.

It's up to us!. Happy Diwali!

Jai Shri Mataji!

Doorway to Heaven

by Mrs Veena Minocha,
Hindustan Times

"This is, make no mistake, the greatest shift of consciousness ever.

The period between November 8 and 23 is a very special time, when Humanity will be assisted by all the Heavenly Beings of Light to catapult their consciousness into the Fifth Dimensional Level.

After the Lunar Eclipse on November 8, a rare Galactic Alignment will build powerful Cosmic Energies which will gather momentum until the Solar Eclipse on November 23. The Star of David formation in the Heavens will be the harbinger of unprecedented showers of frequencies of Divine Consciousness. This will have the effect of opening up a multidimensional portal of Divine Consciousness into the Heart and Mind of the Mother-Father God Principle, the Cosmic 'I AM', All That Is! Every man, woman and child will be treated to a rare glimpse into the remembrance of their own Divinity, and the Oneness of all Life. The Light of Divine Consciousness will be shining forcefully through the Mental Strata of the Earth, and a portal into the Divine Mind of God will open within the mental bodies of all humanity. The new Solar frequencies of the Fifth Dimension will thus become available to all those who choose it! These frequencies are aligned with the Ascended Master frequencies, and will hum in tune with the patterns of perfection in the Causal Body of God. This is, make no mistake, the greatest shift of consciousness ever to be attempted by the Heavenly Beings of Light, for all humans to take advantage of. This gigantic shift of consciousness was very essential to the Divine Plan of anchoring the Light of God on to the planet, to transform the Earth, as well as all humans, for if this was not done, it would be like trying to change the image of humanity in a mirror, without changing the human himself who is causing that reflection.

Outer-worldly situations can only change if there is corresponding change in the minds and hearts of men. When every soul on the planet remembers the Oneness of all Life, and that if we harm another, we are in actuality harming ourselves, then this profound truth will open up the panoramic, mind-blowing concepts of the interconnectedness, inter relatedness, and the ultimate inter-dependentness of soul and soul. Can you imagine how people will interact once the profoundness of this truth pervades their consciousness?"
